

SCHOOL OF GEOGRAPHY, PLANNING AND ARCHITECTURE

THE UNIVERSITY OF QUEENSLAND

PRESENTS A WORKSHOP ON

**SPATIAL INDICATORS AND GIS IN HUMAN
GEOGRAPHY**

**TO BE HELD ON MONDAY 22ND NOVEMBER
9AM TO 4:45PM**

AT THE UNIVERSITY OF QUEENSLAND

The keynote speaker for the workshop is the esteemed Professor Paul Longley, Department of Geography, University College of London (UCL), whose research focuses on the use of Geographical Information Systems (GIS) and quantitative methods in urban analysis (particularly urban remote sensing, urban morphological analysis and urban geodemographics). He is also Deputy Director of UCL's Centre for Advanced Spatial Analysis (CASA).

Professor Paul Longley will open the workshop with a keynote address on 'GIS and Spatial Indicators'. This address will be followed by a series of seminars presented by prominent academic researchers, including Assoc. Prof. Martin Bell from the Queensland Centre for Population Research (QCPR), Prof. Lex Brown from Environmental Sciences at Griffith University, and Prof. Bob Stimson from Centre for Urban and Regional Futures at UQ. These seminars will focus on the use of GIS and spatial indicators. This will be followed in the afternoon by a workshop presented by Professor Paul Longley on 'Using geodemographics to customise public services to local needs'.

The workshop is targeted at practitioners, researchers, postgraduates and academics working on spatial indicators in geography and planning.

Registration:

Anyone planning on attending the morning or afternoon sessions should complete a registration form and send it (via email, fax, post) to the address indicated below by the 18th November. The morning seminars are free and the afternoon workshop costs \$30 (incl. GST).
